

National Supplier Clearinghouse Advisory Committee (NSCAC) Questions Form

The NSCAC is an organization comprised of individuals that are representing their respective DME MAC Jurisdiction Advisory Committees/Councils in all four jurisdictions in the United States. It was formed with the purpose of; improving communication between the National Supplier Clearinghouse (NSC) and the supplier community, suggesting to the NSC targeted educational opportunities regarding supplier number obligations to DMEPOS suppliers, and creating a problem solving/communication link between the DMEPOS supplier community and the NSC. The NSCAC meets regularly with the senior management of the NSC. The NSC has recognized the NSCAC as a liaison to the industry.

Use this form to submit questions to the NSCAC. The compiled questions on a quarterly basis will then be submitted to the NSC for response. **These meetings are intended to discuss and resolve broad issues and problems with the NSC, rather than individual provider's issues.** When you do submit a question, attach appropriate documentation if needed. NSC personnel answer the questions in writing, which are then posted on this website and distributed to the NSCAC membership to share with Advisory Committees/Councils and state associations. **IMPORTANT NOTE: Included on this website is the ongoing question and answer document. Please review this question and answer document to see if your question may have already been addressed.**

Please return questions via an email, **not fax**, to the NSCAC Operations, Rose Schafhauser, email: schafhause@aol.com
